Projects

Google Book Search API – Full-Stack MERN Application

Github Repository: https://github.com/MartinRenteria/Google-Book-Search-With-React

Deployed project link: https://google-books-react-api.herokuapp.com/

Summary: A MERN project made with the Google Books API with a search and save functionality. This project used the React framework, MVC architecture, and knowledge of the React lifecycle methods to query and display books based on user searches. Built within a Node environment, Express server and with MongoDB database so that users can save books to review or save for purchasing later.

Dance Teacher – Team Lead – Backend

Github Repository: https://github.com/Am-White/DanceTeacher_db

Deployed project link: https://dance-class-search.herokuapp.com/login

Summary: This is a full-stack web application that uses the MVC paradigm and our own server-side API to produce a database for different dance classes. These dance classes can be accessed

by students or teachers, they can be searched using numerous identifiers. Classes and Instructors can also be added to the database.

Progressive Budget App – Full-Stack application

Github Repository: https://github.com/MartinRenteria/Progressive-Budget-

Deployed project link: https://offline-finance-tracker.herokuapp.com/

Summary: A budget tracker app that allows users to track their transactions to establish a more organized budget with an offline functionality. Demonstrates understanding of MongoDB, IndexDB, manifest, and service workers for offline functionality.

Work Experience

08/22/2019 to present - **Residential Youth Counselor, Youth Haven Shelter, Kirkland, WA**

- Written and maintained client-related paperwork, including federal- and state-mandated forms, client diagnostic records, incident reports and progress notes for all Youth in WA state that have entered the program.
- Established personal goals and independent living skills with Youth and set them on track to complete goals and skills during their stay within the program.
- Ensured residents safety and provided transportation to meet medical, educational, and legal needs

03/2018- 03/2019 - Registered Behavior Technician, MeBe Seattle, Bellevue, WA

- Provided 1:1 ABA therapy to individuals diagnosed with behavior disorders, mental health disorders, intellectual disabilities and autism spectrum disorders in the home, community, and school systems.
- Worked directly with clients aged 2-18 in the field, in their home and community to achieve greater independence through collecting data on observed behavior, collecting behavioral data assigned by a BCBA and calculating/reporting results to employer and client guardians daily.
